

NAME:

2011 NW ANIMAL RESEARCH PROJECT

This is an individual research project and presentation on your NW animal.

You will be creating a Tarrrier Apps presentation to display your research. You must have a minimum of **4 (FOUR)** different sources and RAD forms for your project. The sources should be equally spread between Internet and print resources, or you may also use media, organizations and people.

The Tarrrier Apps presentation slide show will be **7 - 10** slides long (that includes a title slide). Each slide will focus on *one* of the following topics:

- Classification and description
- Habitat (where it lives & how it lives) & eating habits
- Survival behaviors
- Social behaviors
- Health of species: is it endangered/threatened/sensitive/concerned? Why or why not? (Factors involved in its ability to thrive)

You will also hand in a bibliography separate from the presentation.

All RAD forms should be completed by **MONDAY, NOVEMBER 21**. All slide shows should be completed by **FRIDAY, DECEMBER 2**. Tarrrier Apps presentations will happen during the following week **DECEMBER 5 - 9**. You will turn in your bibliography on the day you present.
